## **Electrical Components International, Inc. Announces Acquisition of NOMA Corporation**

**St. Louis, Missouri, 2/16/07**– Electrical Components International, Inc. (ECI) announced today that it has completed the acquisition of GenTek's NOMA Wire and Cable Assembly Business, a leading North American manufacturer of wire harnesses and value-added assemblies. NOMA, headquartered in Westland, Michigan, has manufacturing and logistics facilities located in Mexico, Canada, India and the United States. Through the sale, ECI acquired all of NOMA's wire harness facilities. The transaction did not include NOMA's insulated wire facility located in Mineral Wells, Texas. Terms of the transaction were not disclosed.

David J. Webster, President and CEO of ECI commented, "This transaction solidifies our position as a leading global supplier of wire harnesses, subassemblies and value-added assembly services. The acquisition furthers our diversification strategy by providing us a substantial foothold into a variety of industries including automotive, home appliances, heating ventilation and air conditioning products (HVAC), construction and agricultural equipment and vending and industrial machines. As part of the transaction, we welcome from NOMA a highly skilled workforce of over 5,500 employees. We look forward to sharing best practices among our employees to create a stronger, more competitive ECI."

### **About Electrical Components International, Inc.**

The company was founded in the 1950s, and is headquartered in St. Louis, Missouri with manufacturing and logistics facilities located in Mexico, United States, Canada, Europe, India, and China. ECI is a leading supplier of wire harnesses, subassemblies and value-added assembly services. ECI's products can be found in a wide variety of electronic and electro-mechanical applications, including home appliances, transportation equipment, heating, ventilation and air conditioning (HVAC) products, construction and agricultural equipment, and vending and industrial machines. ECI has over 14,000 employees located worldwide.
